

2025 Erlebnis Modellbahn in Dresden

We start the trade fair year at full throttle!

Our exhibition team visits Dresden

The Theodor Kunz model railroad club is celebrating its 60th anniversary this year. An annual highlight of the club is its Erlebnis Modellbahn (model railroad experience). This is organized exclusively by this dedicated club and whether you are a long-time model railroad enthusiast or simply curious, there is something for everyone to discover.

So, it's definitely worth visiting Dresden from February 14 to 16. Immerse yourself in detailed landscapes, impressive train models, and exciting demonstrations.

For the model railway layout to be equipped with special vehicles, we have brought along something exclusive for our first appearance at this trade fair. A high roof Mercedes-Benz Sprinter printed with images of two steam locomotives in Deutsche Reichsbahn service (state railway of the GDR until 1993), Class 01 and Class 23. The design is rounded off with a view of the famous Dresden railroad station on the rear.

In addition to this exclusive trade fair model, many other models from our collection await you at Stand C3 in Hall 4. Of course, we will also be packing a few historical treasures from our model archive and can therefore present you with valuable rarities in the N scale (1:160) and even the Z scale (1:220).

We look forward to your visit!
