

A straight five in Dortmund

April is known for its capricious weather, but one thing is always certain: Intermodellbau in Dortmund! The world's largest trade fair for model making and model sport attracts thousands of visitors every year and offers an incredible variety of models for land, water, air, and rail.

From April 10 to April 13, you can once again be inspired by the latest trends. Meet like-minded people, exchange ideas and, above all, stop by our new stand in **Hall 4, Stand 4B12**. We are sure to have something to interest you!

In addition to a selection of serial and special models, we also have a handful of exclusive trade fair models:

In the rotating light sector, we hope to inspire you with three different models. The MAN TGM multi-purpose equipment vehicle at THW Dortmund (federal agency for technical relief in Dortmund), a newly commissioned Scania swap body with trailer at Feuerwehr Dortmund (Dortmund fire brigade), and a MAN TGL CC box truck belonging to Feuerwehr Lünen (Lünen fire brigade).

Another limited edition trade fair model is the Mercedes-Benz G580 with EQ technology (N465) in basic yellow with black applications, based on the local soccer club, which is known for its "Yellow Wall" and has its stadium right next to the exhibition grounds. Wiemann Kran's (Wiemann cranes) vehicles are in a similar color scheme, here the Liebherr LTM 1045. This unusual model (the first time a crane vehicle has been rendered as a trade fair model) completes a winning hand of exclusive variety for Intermodellbau.

Our trade fair team and Product Manager of Cars & Trucks, Stefan Blank, are looking forward to many a stimulating discussion with you at Intermodellbau in Dortmund.
