

## Special vibes in the 3-country corner

### 22nd Faszination Modellbau in Friedrichshafen:

At the end of the year, model makers will be meeting up at the 22nd Faszination Modellbau **from 1 to 3 November 2024**, which will be the final trade fair in our event calendar. As usual, you will find Herpa in **Hall A1, Booth 1330**.

In keeping with the approaching end of the year, our exclusive trade fair model for Friedrichshafen will once again feature an atmospheric Christmas motif. One side of the **high-roof Mercedes Benz Sprinter** will depict lots of great presents, while the other side will be adorned with an elaborate wooden decor. It will probably be the last special model to bear the "75 years of Herpa" anniversary logo on the back. The special model will only be available at Faszination Modellbau, for 10 euros.

For the first time, we will now also offer a model based on an origin in limited edition for the trade fair. What could be better than the **Friedrichshafen fire department**, who were very open and happy to give their approval. The first model to appear is a **MAN TGE KEF** and is based on a new shape model (because the "regular" transporter was previously not possible with twin drive axles), which will be offered at a special trade fair price of 25 euros.

Another highlight will be **the visit at the trade fair of our product manager Stefan Black (Cars and Trucks)**. He will be there to answer all questions and will be giving a presentation in Hall A2, Booth 2120 on Friday and Saturday from 2 to 2:30.
